

# Burps, Bottoms and Bile

Open wide – let's look inside! We're on a voyage of discovery to investigate the busy world inside your body. This half term, we'll find out about different dental procedures and learn new scientific vocabulary. At school, we'll use this information to write toothy fact files. There will be lots of investigating as we learn about our different teeth, how to brush them and how sugary drinks affect them.

We'll examine the amount of sugar in different foods and create images of ourselves with healthy and unhealthy teeth.

We'll write a story describing the journey a piece of food takes through the digestive system. In science, we'll learn about the organs involved in digestion and make our own wearable digestive systems in D&T. We'll learn about digestion in different animals and handle a range of digestive organs.

At the end of the ILP, We'll use what we've learned to play a scientific game and create healthy snack packs for our friends. We'll also write to our digestive systems, promising to keep them healthy.

# Class Book

This term, our whole class reading book  
is 'Demon Dentist' by David Walliams

Strange things are happening in the dead of night. Children who put a tooth under the pillow for the tooth fairy wake to find... a dead slug, a live spider, or hundreds of earwigs creeping beneath their pillow.

Evil is at work, but who is behind it? Could it be the Demon Dentist?

Demon Dentist tells the story of a boy called Alfie and his best friend Gabz, a girl who doesn't talk a lot. One day their headteacher invites Miss Root, an evil and petrifying dentist into school to give a talk on dental hygiene. And that's where the adventure really starts...

# Home Learning

Times Tables Rockstars and Lexia are great apps that can be used at home to practice key maths and reading skills. All log-ins can be found in the front of reading records.

Please see the 'Home Learning' document for more home learning ideas linked to our Burps, Bottoms and Bile project!
